

ColorFill Laminate Repair

Product Description:

ColorFill laminate repair product
– 25g e

Key Features:

- ColorFill has been specifically formulated to repair laminate flooring simply and effectively.
- ColorFill is a self setting material which requires no mixing.
- ColorFill is touch dry in one hour and after this it is waterproof and resistant to all household detergents and cleaners.
- ColorFill provides a permanent repair.
- There are over 250 ColorFill colours as standard.

Directions for Use:

Clean area with a white tissue moistened with ColorFill solvent, never use thinners or other solvents.

Open the tube and squeeze out a liberal amount of ColorFill onto a flat steel spatula or putty knife.

Place the blade behind the damaged area and draw back over the damage filling the chip or scratch with material, pressing firmly to leave as little excess on the surface as possible.

Using a spatula carefully scrape off the overfill around the damage avoiding the filled area which may still be wet then wipe around the area with a solvent moistened white tissue.

It is important to keep the spatula clean at all times to ensure a smooth finish.

Depending on shrinkage and depth of the damage a second or third application may be necessary. It is possible to build up as many layers as required to build up the surface, remembering to clean off the overfill between each application.

Finally leave the repaired area to harden completely for 2 hours at least then clean with warm soapy water.

Consumer Benefits:

As ColorFill has over 250 colours the laminate flooring match will be exact and the repair will hardly be noticeable once complete.

ColorFill is an easy to use one component product which requires no mixing.

ColorFill will resist moisture, detergent and other household products as efficiently as the laminate.

ColorFill will withstand heat and direct sunlight.

ColorFill provides a permanent repair.

Product Advantages:
